

Welcome to the 2017-2018 school year! As we get ready to start school, there are a number of things in the attached documents that you may find of interest. We need to thank those members of our staff who have been working hard over the summer to create an environment that is clean and organized. The custodial staff has worked around the clock to get the classrooms ready, coaches have been holding workouts, and Mrs. Sarcyk has been working very hard to keep the building running by answering phones, organizing purchases, and keeping me updated.

I am excited to start my seventh year as principal, and I welcome our new assistant principal, Mr. Doug Faris. He has a wealth of experience, coming to us from Akron City Schools, and serving most recently as interim principal at Kenmore High School. He is excited to be a part of Revere High School as we begin the school year. We are both looking forward to serving you and the Revere Community.

Last year we began several initiatives that made their mark on our Revere students. The initiative that impacted most was the addition of MacBook computers in October. Those computers will be a big part of our educational landscape for years to come. As a matter of fact, my fingers are not touching the keyboard as I am writing this because I am using voice-to-text recognition. You will also notice a number of changes as we look forward to a new school building in the 2019-2020 school year. We are grateful for the support of our community by passing the bond issue in 2016 that will allow us to continue improving and making positive changes in the lives of our students.

Please take the time to read the attached pages because there are a number of important dates and informational items. We wish you all a wonderful school year as we approach the first day of school.

Go Minutemen!

Phillip King
Principal
