

Revere High School Volunteer Program

The Volunteer Program offers high school students volunteer opportunities and credit for community service. As I am made aware of community or non profit organizations needs for student volunteers emails are sent to the student body via their student email. For every thirty hours of volunteer service a student receives .25 credit that goes on their transcript as community service credit. Volunteer hours are accepted from the summer going into ninth grade through the end of senior year. To have volunteer hours recorded, verification forms must be submitted to Mrs. Henretty, Volunteer Coordinator, in room C123B. The community service hours are calculated in May and credit is entered on the student's transcript. Please contact Mrs. Henretty regarding questions or concerns, 330-523-3229 or lhenretty@revereschools.org
