On Monday, October 25, 2021, the Ohio Department of Health announced [new quarantine alternative guidelines](#), including “[Mask to Stay](#)” and “[Test to Play](#)” options. The proposed changes incorporate mask-wearing and testing to reduce the chance of spread of COVID-19 within structured school settings and provide a safe alternative to out-of-school quarantine.

Beginning Tuesday, November 2, the Revere Local School District will implement the “Mask to Stay” and “Test to Play” options when exposure to a confirmed case occurs at school. This is not applicable when exposure occurs outside of school related activities.

### **Mask To Stay**

Direct contacts in a school environment, regardless of vaccination or masking status, may remain in the classroom environment if they:

1. Wear a mask for 14 days after their last date of exposure.
2. Self-monitor, or parent-monitor, for symptoms of COVID-19.
3. Isolate and get tested if they start to experience symptoms associated with COVID-19 (regardless of level of severity).
4. Consistent with guidance for others quarantining in lower-risk environments, students and staff may discontinue these quarantine procedures after seven days — if they meet two basic criteria: one – they don’t develop symptoms, and two – they test negative between days 5-7.

### **Test to Play**

Asymptomatic contacts in a school environment may continue to participate in extracurricular activities if they:

1. Wear a mask when able. This includes wearing a mask during transportation, such as traveling on a team bus to and from games; while in locker rooms; while sitting or standing on the sidelines; and any time the mask will not interfere with breathing, the activity in which they are participating, or create a safety hazard.
2. Test on initial notification of exposure to COVID-19.
3. Test again between days 5-7 following exposure to COVID-19. If they are negative at this time, they will test out of quarantine after day 7 and can resume normal activities.
