Futsal
The Indoor skills and game
TRAINING FOR ALL SOCCER PLAYERS

Futsal is the indoor training method to improve skills and understanding of soccer in a fun, enjoyable environment—using a Brazilian futsal ball as key component of the training method. We are excited to offer this program to the Revere Soccer club community and players of all ages.

How does Futsal promote better technique?

Just watch futsal players fight to keep the ball from crossing the touch line and you’ll immediately begin to see how futsal develops skill, control, and technique. A small field with lines puts players constantly under pressure from other players and out-of-play boundaries. Players must learn to settle the ball rapidly, cut sharply, shield effectively, pass quickly and move into space.

Compared to walled soccer or large indoor field soccer, futsal places a greater premium on ball control. There is no reward for errant passes because the other team gets the ball. There is no reward for errant shots because the other team gets the ball. There is no incentive to 'kick and run' because the field is too small and packed with players. Players with the ball must use proper technique to maintain control and must seek out other players in space. Players without the ball must move to 'real' space and must truly support their teammates. With futsal, the emphasis is clearly on control and technique. Without control and technique you cannot expect to succeed in futsal.

And, if US players are to be more successful in the international arena, it is clear that we must better train and prepare our youth on proper technique. If you are serious about skills and technique development, futsal is the superior activity. Futsal promotes better technique and develops skills more rapidly. And if you are serious about the quality of the time you spend playing or watching soccer games, futsal is clearly better.

See our website www.soccerdevelopmentcamps.com for more information

Training Features:
• Low player to coach ratio
• Coordination, speed and agility training
• Soccer skill development
• Enjoy soccer in a Fun training and playing environment
• Focus of player development skills and how to apply in a game setting
